

CASE STUDY

ADRA | rediCASE

OUR CONNECTION

ADRA

The Adventist Development and Relief Agency provides development and disaster relief to hundreds of different countries and its peoples. Since its establishment in 1956, ADRA has grown exponentially, enabling the organisation to provide a range of support to thousands of people in need.

ADRA aims to develop food security, economic development, primary health, emergency management and basic education.

ADRA Australia manages multiple community programs and since partnering with rediCASE, this task has become far easier. rediCASE allows users to quickly enter and maintain records, keeping them safely stored in our system.

“ rediCASE has increased our productivity, given us an improved sense of professionalism and trust that our client records are safe.”

Kate Barratt
Manager- ADRA Community Care Centre Redwood

rediCASE CASE MANAGEMENT SOFTWARE

Software Features & Benefits

A key benefit of rediCASE is that organisations like ADRA can use the software across all their service arms – from education and health through to shelter. It is one all encompassing system that supports clients wherever they are and for whatever treatment they are having.

rediCASE is highly flexible. The software enables each organisation to select and sort the data collection fields in their preferred order for their own requirements. Additionally, rediCASE is user friendly and innovative. With simple point and click functionality, users may easily navigate through the software's many core features.

“ Simple client management system. Easy to record case notes and client details. Great for collecting data for reporting and grant application purposes.”

All rediCASE data is secure and online, eliminating any need for physical records that can be lost or mismanaged. rediCASE is equipped with a range of filtration tools, allowing users to find records, clients and treatment data in an instant.

“ rediCASE allows us to keep client records safely, it has removed the need for paper records and can be accessed anywhere. It has been especially handy during working from home COVID restrictions.”

Kate Barratt
Manager- ADRA Community Care Centre Redwood
